#### WEATHER

The last week of the year was cold with the average temperatures ranging from one to nine degrees below normal. Widespread heavy snowfall started out the week. Water equivalents ranged from a few hundredths in the Panhandle and north central up to more than an inch in the south and east.

#### GENERAL

Weather conditions during the first three weeks of December allowed farmers the opportunity to complete fall crop harvesting with only isolated fields still standing. The month ended with winter storms covering many eastern and southern counties with ice and all areas with snow. The state averaged near eight inches in snow cover as the month ended. Accumulations of near one foot of snow were reported across most of the northeast as well as parts of the southwest and Panhandle. Snow cover in the east central and southeast averaged less than five inches; however, the heavy accumulation of ice resulted in power outages in many areas.

### CROPS

Winter wheat condition rated 6% fair, 80% good, and 14% excellent, just above last January's rating. The accumulation of ice under the snow cover was causing some concerns in the east; however, in general, the snow cover was seen as a protective cover to the crop.

#### LIVESTOCK

The late month winter storms did cause a variety of problems for livestock producers. The power outages from the storm left many livestock in the east without water for extended periods of time. Even once power was restored, frazen waters and water lines complicated producers' efforts. Some livestock in confinement were lost, but the storm's short duration limited the amount of stress experienced by most animals. Feed grain as well as hay and forage supplies rated adequate to surplus.

NEBRASKA WEATHER & CROPS (ISSN 0745-0230) is published weekly April-November and monthly December-March by the Nebraska Department of Agriculture, Nebraska Crop and Livestock Reporting Service (NCLRS), 100 Centennial Mall North, Room 273 Federal Building, Lincoln, NE 68508. Subscription is free to survey respondents upon request to NCLRS, P.O. Box 81069, Lincoln, NE 68501, or by calling (402) 471-5541 and available for \$12.00 p.r year to non-reporters. POSTMASTER: Send address changes to NEBRASKA WEATHER & CROPS, Box 81069, Lincoln, NE 68501.
